OBJECTIVE

Enthusiastic and detail-oriented MCA student with a solid foundation in computer applications, programming, and AI/ML. Passionate about building real-world IT solutions, with strong problem-solving skills and a keen interest in emerging technologies.

EDUCATION

MCA- Ajay Kumar Garg Engineering College, Ghaziabad **2024 – 2026**
*BCA - ShriKrishna Institute of Management nd Science, Chandausi - **CGPA - 7.3*** *Sambhal, Uttar Pradesh*
12th - H.L.B.Memorial School, Islamnagar - **Badaun, Uttar Pradesh**
10th - Anglo Vedic Sr. Sec.School Bahjoi - Sambhal, Uttar Pradesh

PROJECTS

1. CitySathi- Smart Civic Issue Reporting System | CitySathi (Full Stack Application)

- Developed a citizen-centric civic issue reporting platform using React.js for frontend and Node.js with Express.js for backend, integrated with Firebase (Firestore + Storage).
- Implemented features for user authentication, complaint submission with image upload, automatic geo-tagging, and real-time status tracking.
- Designed a role-based dashboard for authorities to view, verify, and update citizen complaints and generate analytical reports
- Utilized REST APIs for smooth frontend-backend communication and ensured responsive, accessible UI using modern React components and Tailwind CSS.
- Developed a **Machine Learning-based image Classification system** to automatically categorize civic issues such as: garbage, pothole, drainage problems.

2. AI-Powered Cyber Threat Detection System—(Python, Machine Learning, Streamlit, SQLite)

- Developed a machine learning-based cyber threat detection system using Random Forest Classifier to identify malicious network traffic.
- Built an interactive Streamlit dashboard with secure login authentication, threat analysis, and visualization features.
- Implemented threat severity classification, PDF report generation, and SQLite database logging.
- Integrated GitHub version control and deployed the application on Streamlit Cloud for online access.
- Achieved approximately 89% model accuracy on cybersecurity threat detection dataset.

TECHNICAL SKILLS

Languages: Python, C++, JavaScript, SQL

Machine Learning: Supervised Learning, Unsupervised Learning, Classification, Regression

Libraries/ Tools: NumPy, Pandas, Scikit-learn

Technologies/Frameworks: HTML, CSS, React.js, Node.js. Express.js, MongoDB

Tools Platforms : Git, GitHub, VSCode, Leetcode

Other Skills: Problem-Solving, Team Collaboration, Agile Basics.

CERTIFICATIONS

- Google Cloud Digital Leader - LinkedIn in Learning
- Power BI for Beginners - Microsoft
- Python - Oneroadmap
- Java - Oneroadmap

EXTRACURRICULAR ACTIVITIES

- * **Graphics Designing Video Editing** – Created posters, social media creatives, and videos using Photoshop.
- * **Sports Enthusiast** – Played on the College cricket team, Enhancing teamwork and leadership skills.
- * Strong Analytical and Problem-solving skills.
